### PROFESSIONAL SUMMARY

Software Engineering undergraduate at NSBM Green University currently pursuing a BSc (Hons) in Software Engineering with a strong interest in full-stack web development, creating intuitive, scalable, and user-centered web applications through modern development practices and effective UI/UX design.

### EDUCATION

#### • BSc (Hons) in Software Engineering | Undergraduate | CGPA-3.58/4 2023 - 2027

NSBM Green University, Sri Lanka

**Relevant Coursework:** Web Application Development, Data Structures & Algorithms, Time Complexity, Object-Oriented Programming in Java, Database Management System, Computer Architecture, Software Architecture, Statistics, Human Computer Interaction, System Analysis & Design, Enterprise Application Development, ERP, Computer Networks, Information Assurance & Security, Mobile Application Development, Quality Assurance

#### • G.C.E.(A/L) Examination | Physical Science | Grade-CCS 2019 - 2022

Mo/ Koularagama National School

### SKILLS

- Frontend Development: HTML, CSS, JavaScript, Typescript, React, Next.js, Tailwind CSS
- Backend Development: Node.js, Express, NestJS
- Database: MySQL, PostgreSQL
- Tools & Design: Postman, Swagger, Git, Github, Figma, Photoshop
- Programming Languages: C, C#, Java
- Soft Skills: Adaptability, Problem Solving, Team Collaboration, Time Management

### CERTIFICATIONS

- |                                               |                               |
|-----------------------------------------------|-------------------------------|
| • Web Design for Beginners                    | University of Moratuwa   2025 |
| • Frontend Development                        | University of Moratuwa   2026 |
| • Python for Beginners                        | University of Moratuwa   2026 |
| • Frontend Development with React (Following) | IBM-Coursera                  |

### PROJECTS

- **Safari Booking Platform** [Frontend](#) [Backend](#)
  - Developed a full-stack safari booking website for Udawalawe National Park using Next.js, Tailwind CSS, NestJS, PostgreSQL, and Prisma ORM.
  - Designed and implemented a responsive booking interface for online safari reservations and homestay reservations.
  - Built RESTful APIs for booking creation, retrieval, and management.
  - Implemented JWT-based authentication and authorization for secure admin access.
  - Developed a protected admin dashboard to view and manage customer bookings.
  - Implemented a blog management module for publishing safari and travel-related content with dynamic frontend pages.
  - AI assistant with Gemini API integration and Groq LLaMA fallback mechanism for Safari assistance.

- **‘GoviAI’ Mobile Application (Group Contribution)**

[GitHub](#)

- Developed an AI-powered agriculture mobile application for Sri Lankan farmers using Flutter and Firebase.
- Designed and developed an AI recommendation system providing Sinhala guidance, organic remedies, chemical treatments, dosage instructions.
- Built an AI chatbot with Gemini API integration and Groq LLaMA fallback mechanism for reliable real-time agricultural assistance.
- Developed a farming calendar with crop schedules and real-time task management using Firestore.
- Implemented an agriculture news and alert system with categorized updates and offline connectivity detection.

- **Auction Site Management System (Group Contribution)**

[GitHub](#)

- Developed the complete Blog module as a full-stack contributor using ASP.NET Core, Entity Framework Core, and Next.js.
- Built RESTful API endpoints for blog creation, retrieval (slug-based), and secure deletion with activity logging.
- Developed dynamic blog listing and detail pages using Next.js with slug-based routing.
